The Mayor introduced April Elkins-Badtke and Zach Foster with the Appalachian Conservation Corps. April gave a brief introduction about the Appalachian Conservation Corps and Zach elaborated on it. The Appalachian Conservation Corps (A.C.C.) is a national program that works with young adults between the ages of 16 -18. They are seeking municipal support to team up with the City of Beckley while attracting more young adults to join the work force in our community. The A.C.C. assumes all screening, workman's compensation, insurance and other areas of training and liability for the young adults. The A.C.C. needs \$25,000.00 for funding to reach their goal. The A.C.C. is in Robert Dunlap's building on Prince Street. Councilman Sopher & Councilwoman Bullock asked questions. Mr. Foster clarified the program by stating that the A.C.C. has local recruiters that work with local schools, church groups, etc. The A.C.C. requires references and the applicants undergo background checks and their schedule runs congruent with the school calendar. They operate in crews of eight which is comprised of two crew leaders and six participants. The crews work on trails and other community projects. They earn a wage of \$10.00/hr. Councilman Price said that he thinks the Trail of Lions is a great opportunity for the young adults. The Mayor asked Council to consider the City making a contribution to the A.C.C. This matter will be discussed at a future meeting. Ms. Badtke stated that this introduces the young adults to a life of conservation. The Mayor invited them to attend a future Council meeting and thanked them for attending tonight's meeting.

**OLD BUSINESS:** The Mayor congratulated Janine Bullock for her 2021 NAACP Living Legend Award. The Mayor informed Council that seven Probationary Police Officers were sworn in January 25, 2021. Chief Christian stated that he is happy to get them started. The Mayor updated Council on the traffic light situation uptown. He acknowledged the amount of time that this project has taken. The Mayor asked Jerry Stump, Director of Board of Public Works, to update Council on the meeting he had today with SGI. Jerry stated that most of the underground work is completed. Some of the poles and cabinets are now in stock, and they are waiting on more to arrive. They hope to start pole installation in approximately two weeks.

A representative from the power company was at the meeting with Jerry Stump and SGI. A new meter base will have to be installed. The power changes will take approximately one week then the concrete work will have to be completed. Councilman Sopher asked Jerry about the concrete they are going to pour around the intersections. Mr. Stump stated that it will be finished with joints and concrete to meet ADA standards. The poles also must be ADA compatible.

The Mayor stated that Councilman Price, had mentioned earlier the Mountain State Trail Alliance memo that Recorder-Treasurer, Billie Trump circulated to Council. They think that the City will be involved in this alliance and that it is a very exciting long-range plan and will help with the ultimate goal of connecting Beckley with Fayetteville. The Mayor stated that the timing is wonderful. The New River Gorge is now a National Park. The Mayor stated that Bill Wells has been a member of several different boards working with trails, including bicycle friendly trails. Bill Wells and Gary Moorefield have worked very closely together on trail development.

The Mayor stated earlier today that he circulated a photo of New River Drive illustrating the significant amount of water that flows through that channel and through that small creek. Today there was almost two inches of rain there in a twenty-four-hour period. Currently, the box culverts are not open for full use. He said the New River Drive Project is a much larger project than might be widely known.
